

TECHNICAL DATA SHEET

APC-80 ELITE

The APC-80 Elite, a breathalyzer with an electrochemical sensor compact and reliable!

The **APC-80 Elite** is a breathalyzer that has an electrochemical sensor similar to those found in devices used by police force. It has test counter and it keeps the last 5 in memory. Its screen turns red and is accompanied by an audible alarm when the reading is above 0.05%. It offers 3 decimal display. It also has a low battery indicator. **A wise choice!**

FEATURES

- » FDA Approved
- » Sensor: electrochemical
- » Detection: 0.000 to 0.400% BAC (blood alcohol content)
- » Accuracy: ± 0.05 (at 0.05 %)
- » Display: 4 digits (0.000)
- » Dimensions: 5.2 cm x 10.2 cm x 2.2 cm
- » Included Items: 5 mouthpieces and a carry case.
- » Suggested Calibration: every 12 months or 500 tests
- » Preheat Time: 10 seconds
- » Warranty: 1 year
