

AQ-08 PRO & PRO PLUS

THE AQ-08 PRO, A BREATHALYZER CERTIFIED BY THE US DOT / NHTSA

A perfect device for enterprise use

The **AQ-08 Pro** is an ideal device for companies that perform alcohol screening tests, small licensed establishments, health clinics, firms that organize corporate events or individuals who want a high-grade breathalyzer.

The **AQ-08 Pro** is certified by the US DOT (*Department of Transportation*) / NHTSA (*National Highway Traffic Safety Administration*) and approved by the FDA (*Food and Drug Administration*). It has a sensor of the highest quality, a test counter and an audible alarm when the BrAC (breath alcohol content) test is greater than 0.05. The device comes with a sturdy case and is also available in a hard case for greater impact resistance.

The **AQ-08 Pro Plus** includes the **AQ-08 Pro** device and additionally includes a small wireless printer that allows test results to be printed. The printout displays the test number and the date and time the test was performed. In addition, space is provided for the name and signature of the person tested.
