

TECHNICAL DATA SHEET

ALCO-TUBE PLUS

Single-use Breathalyzer

The Alco-Tube Plus lets you know if you exceed the legal limit allowed for driving a vehicle in less than 2 minutes! It meets the FDA standards and is approved by MADD Canada.

This inexpensive breathalyzer can be used to both individuals and companies wishing to ensure that their employees and guests return home safely. It can be used on various occasions and corporate events such as office parties, golf tournaments, 5-7, cocktails, etc.

AVANTAGES

- » Effective
- » Easy to interpret
- » Economical
- » Provides a peace of mind
- » No calibration needed
- » Can save lives and prevent accidents
- » Small and discreet, it fits easily in a shirt pocket or handbag.

OPERATION

Easy to use, the time required to blow and to interpret the result are indicated on the tube by the color change of a rectangle that changes from red to colorless when blowing time is enough and turns red again when the result is ready to be interpreted. When the crystals change from green to yellow and the green color exceeds the black line, you exceed the legal limit.

FEATURES

- » Dimensions: 10 cm long x 1 cm in diameter (diameter of a pencil)
- » Weight: 6.0 grams
- » Accuracy: only $\pm 2\%$ margin of error
- » The result appears in 2 minutes
- » Required time after last alcohol intake: wait 20 minutes after the last drink
- » Required time after smoking: wait 5 minutes after the last cigarette
- » Shelf life: printed on the packaging (about 18 months)
